SSUK PULASTIC® BOOST

This beautiful and strong floor is very suitable for group lessons. The combination of the solid wooden base with the user-friendly and wear-resistant advantages of Pulastic, results in a superb floor. Available in an infinite range of colours and effects. Create the WOW factor and give your fitness club a BOOST!

SSUK Pulastic® Boost is composed as follows:

- Durable, transparent coating to protect the decorative top layer for balance between slide and grip.
- Seamless, high decorative top layer of 2 mm on the wooden subfloor.
- Innovative wooden tongue-and-groove connection for a stable and reliable construction.
- High-quality foam base mat, as a solid foundation of the system, contributes to the level of comfort.
