SSUK PULASTIC® ACTIVE

Ultimate support for the most challenging training sessions. This all-rounder offers high-level comfort and resistance to high impact. Don't hold back, be ACTIVE!

SSUK Pulastic® Active is composed as follows:

- Hybrid layer build-up of 5 mm creates a strong and comfortable top layer.
- Flexible sealing layer as a connection between the rubber base mat and the top layer.
- Extremely strong adhesive anchors the fitness floor to the subfloor.
- 14 mm thick base mat made of recycled rubber and foam for excellent comfort.

Nominal thickness	Flooring type
19 mm	Mix elastic
